

SOAP DISPENSERS **GW04 06 04 01 cylindrical soap dispenser 300 ml****Product description**

Material: AISI 304 stainless steel  
Interior container made in ABS  
Operation: Manually by pressure  
Finish: Brushed  
Capacity: 300 ml  
Attached to the wall  
Anti-drip valve

**Technical specifications:**

The vertical soap dispenser is entirely made of AISI 304 stainless steel material, with a brushed finish. An ABS container has been included in its interior with a filling capacity of 300 millilitres. The container is filled by opening the top cover and unscrewing the container's plastic cap or by removing the plastic container from underneath by pressing a lever on the lower rear side. The soap dispenser has an anti-drip valve. The push-button, made in stainless steel with a brushed finish, is operated manually by pressure. It is fixed to the wall by firstly fastening two stainless steel parts to the wall and subsequently attaching the two protruding elements on the rear side of the dispenser to these parts and screwing them together so the dispenser remains anchored. It can be filled with vegetable or synthetic soap. The soap dispenser model is GW04 06 04 01, manufactured by GENWEC WASHROOM S.L. - Av. Joan Carles I, 46-48 - c.p: 08908 L'Hospitalet de Llobregat - Barcelona. [www.genwec.com](http://www.genwec.com).

**Technical characteristics****Product specifications**

Type of material: AISI 304 Stainless steel  
Brushed exterior finish  
Capacity: 300 ml  
Attachment to the wall: vertical  
Anti-drip valve

**Packaging specifications**

- Type of individual package: Individual cardboard box and Cell Aire wrap
- Dimensions of individual package: 255 x 85 x 70 mm
- Product dimensions: 250 x 70 x 60 mm
- Units per box: 12
- Units per pallet: 432 (\*)

(\*) Height below 1.1 m.
