

STAINLESS STEEL SANITARY TOILETS **GW08.59.04.01 Squat toilet**

**Product description**

AISI 304 1 mm stainless steel squatting toilet  
Polished finish  
Floor mounted  
Ø 102mm water output  
Water input ½"  
With one water outlet

**Technical specifications:**

Squatting toilet made of AISI 304 stainless steel, total thickness 1 mm. The unit has a perimetral rim and anti-slip zone. With one water outlet. The connection to the drainage system is done by a water output diameter 102 mm. The assembly of the unit is done by setting to the floor. The unit has a satin finish that gives adequate resistance against the use. The total dimensions of the product are 595x625x150 mm. The reference is GW08.59.04.01, manufactured by GENWEC WASHROOM, S.L. - Av. Joan Carles I, 46-48- L'Hospitalet de Llobregat. [www.genwec.com](http://www.genwec.com).
