

Product description

Shower folding seat
Structure material: Nylon finished AISI 201 stainless steel
Seat material: Nylon slats
AISI 304 stainless steel support and hinge
Seat supports 120 Kg

Technical specifications:

The folding shower seat is composed by a support structure and a seat. The support structure bar is composed of an AISI 201 stainless steel tubing with 25 mm of diameter and 3 mm of thickness. The tube has been bent as a "U". All the pieces of the support structure have a 5 mm nylon layer finish. The structure turns 90° to the wall supports in order to be able to leave the seat in upright position. The seat is composed by 4 nylon slats. The finish of the assembled unit and its materials assure a correct maintenance and cleaning. The shower seat is fixed to the wall with 8 screws and 8 nylon wall plugs to support static loads of 120Kg. The shower seat code is GW11 39 09 00, manufactured by GENWEC WASHROOM S.L. - Av. Joan Carles I, 46-48 - ES- 08908 L'Hospitalet de Llobregat - Barcelona (SPAIN). www.genwec.com.
