

Product description

Nylon Shower Seat
S.S. body AISI 304 with Nylon finishing.
Seat made with thermo-conformed Nylon
Threaded assembling system

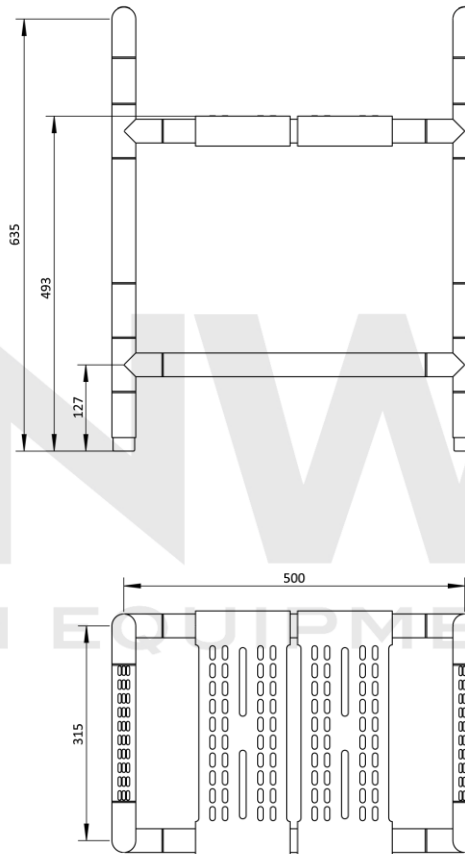

Technical specifications:

Nylon Shower Seat. The product consists of a supporting structure and a seat assembly. The structure of support made entirely of stainless steel tube AISI 304 of 30 mm diameter covered by a 5 mm nylon layer (total diameter 35 mm), is formed by 2 legs in inverted U-shaped and 3 bars. The seated surface made by slats of nylon thermoplastic material, is inserted into the stainless steel tube of the structure. The assembled assembly has adequate resistance against corrosion and its materials ensure its good maintenance and cleanliness. The nylon shower seat reference is GW11 40 09 00, manufactured by GENWEC WASHROOM S.L. - Av. Joan Carles I, 46-48 - ES- 08908 L'Hospitalet de Llobregat - Barcelona (SPAIN). www.genwec.com.
