

INSECT KILLERS **GW14 01 03 00** Glueboard insect killer

Product description

Glueboard insect killer of 15W
Ideal for alimentary environments
Innocuos glueboard
Material: Polycarbonate
Finish: White

Technical specifications:

Glueboard insect killer 15W. The product composes of a wall mount, a main body, a 15W lamp and a glueboard to catching insects. The main body is made of polycarbonate and includes a 315nm actinic light lamp of 15W inside. Light provides 90m² coverage. 0,08m² innocuous glueboard without any insecticide is located on the exterior part of the product to catching the insects, and to avoiding the insect contact with the food. The superficial finish is white and there is a blue light on the top. The product is fixed to the wall with the mount and two screws. The total measures of the product are 170x535x110mm. The product code is GW14 01 03 00 manufactured by GENWEC WASHROOM S.L. – Av. Joan Carles I, 46-48 08908 L'Hospitalet de Llobregat.
