

TECHNICAL MOBILITY SUPPORTS **GW11 61 09 00 Nylon shower seat for straight bar**

Product description

Structure material: Nylon finished AISI 304 stainless steel

Seat material: Nylon slats

Seat supports 120 Kg

Specifications técnicas:

Shower seat adaptable to straight bar. The product consists of a main tubular structure and seat slats. The main structure, made of 30 mm diameter AISI 304 stainless steel tube, is formed as a seat with two curves at the end for hanging on a bar. The main structure is entirely covered with 5 mm thick nylon tubes. The slats, made of thermoplastic nylon, are attached to the main structure to form a seat. Its materials ensure proper maintenance and cleaning. The technical mobility aid model is GW11 61 09 00, manufactured by GENWEC WASHROOM, S.L. - Av. Joan Carles I, 46-48- ES- 08908 L'Hospitalet de Llobregat - Barcelona (SPAIN).. www.genwec.com
